Age Range: 4 - 6 years

Grade Level: Preschool - 1

Customer Reviews

My son (4) just brought this home from the library, I'm glad we are only borrowing it! It doesn't actually explain anything about farming or even tell you the name of a particular piece of equipment and it speaks to children as if they are dolts. Sadly my son knows more about farming and equipment than whoever wrote this book.

Beautiful photos and some agricultural explanations; however, the book does not identify the farm machinery, which is a detriment to a child wanting to learn about what the title of the book implies.

This book is great for teaching first graders about farming. The boys in my class loved looking at the machinery.
