I Spy With My Little Eye Hockey

Synopsis

For many sports fans there's no such thing as too much hockey. And in *I Spy with My Little Eye Hockey*, young readers get double the fun. Matt Napier, author of *Z is for Zamboni: A Hockey Alphabet*, teams up with photographer David Milne to create a visual puzzle book that challenges the deductive skills and sharp eyes of young readers. Dual look-alike photographs are filled with hockey masks, sticks, pucks, even miniature ice rinks and trading cards. But one of the scenes has been slightly altered. Can you see the changes? How many can you find? Poetic clues help young fans and seasoned veterans find the various differences between each pair of scenes. From the number of Zambonis on the ice to the sweaters hung in a locker room, hockey fans of all ages will enjoy this new way of spying the game!

Matt Napier is the author of the bestselling *Z is for Zamboni: A Hockey Alphabet* and *Hat Tricks Count: A Hockey Number Book*. The son of a professional hockey player, Matt was born in Montreal, Quebec. He is a recent law school graduate and lives in Toronto. David Milne is a third-generation photographer in Toronto, Canada. He studied at Brooks Institute of Photography in Santa Barbara, California. David photographs art for numerous galleries and artists, corporate portraits, products and all types of events. Travel photography is his passion.

Customer Reviews

I bought this for my son. he plays and loves hockey, and he loves *I Spy* books, so when he got this

he was pretty excited. It is different than the I Spy books we are used to. Instead of finding objects, you are finding the differences between the 2 pages. Its different but we like it.

So Cute! Each page has a somewhat different activity (find and count; find the differences). Great for a hockey loving toddler. As you can assume with an "I Spy" book, not many words, but great pictures. My 2.5 year old LOVES this book and so do we. Very interactive.

I like its just not an "I SPY" book like i thought i wish i would have read more on it, its a find the differences book so not what i thought i was getting. still its a book about hockey and thats just fine in our home!

Our 2 1/2 year old grandson is obsessed with Hockey. He loves this book and having his Canadian Dad read it to him. Sometimes when he disappears for a few minutes I find him with this book, just looking at the pictures!

We bought this book for a friend so we didn't use it for long but I did take a peek before sending it on. Seemed like a fun read but one of the pages was a bit torn and I didn't have time to deal with sending it back and waiting for a new one.

Not what I expected. My five year old loves I Spy books, but in this one you don't find objects you find what's different between the two pages and the pages are very busy. Sorry I purchased it.

This is a wonderful book for a child. This was a present for my six year old son. It is a good way to spend time with him. He likes trying to find the items faster than me.

has a variety of pictures....Zambonis, trophies, sticks, action, etc to see the differences from one side to the other...great for nonreaders
