Customer Reviews

My 2 year old son really loves this book. He struggles with the view finder, but hopefully will be able to use it as he gets older. He loves this television show and this book keeps him occupied and interested.

My preschool students adore this book. The picture viewer gets them hooked from the very beginning.

The kids love Little Einsteins, and this book makes learning about Australia fun. The book, while used, was in impeccable condition when received. Loved the viewfinder attached.

My son is 2 and loves Little Einstein. Thought the book might be a little young for him but he knows exactly what to do with the spinning circle. He just loves it

My son still picks this book off the shelf at bedtime. It tells a lot about many unique animals and

places in Australia.

My son loves to look at the viewfinder and has learned a lot from this book.
