# National Geographic Readers: Planet Earth Collection: Readers That Grow With You

## Synopsis

Powerful weather, bursting volcanoes, sparkling gemstones, and more will fascinate science and fact-hungry kids. Experience the whirl of a hurricane, dig deep and learn about the rocks that make up our planet, and discover the amazing feeling of a rainstorm. National Geographic Kids brings readers some of their reader's favorite science topics in one convenient package. A Fascinating science information is accompanied by wonderful photographs to ensure that kids' natural curiosity is both satisfied AND inspired.

Grade Level: Kindergarten - 3

## Customer Reviews

Very informative and provoking inquiry. As NatGeo publication is features stunning photos, but what is really great is that complex concepts are easily understandable. Next question: What is causing wind?

My son is 7 and really enjoys this book along with the all the other national geographic books. Good information without being overwhelming. My son is in the gifted classes in first grade and this book suited him just fine.

The book compiles all weather lectures into one book. Great read for second graders not too much words to overwhelm kids and great realistic illustrations.

My kids are fighting to have it ... The info in these small booklets is easy to understand .. They know more than me now .. It's beautiful ..
