Customer Reviews

Great book! We had the 2006 edition for my 7-year-old son last year and he couldn't wait to get his hands on the new 2007. He takes it to school for free reading time and all of the kids love it. Even our friend's 12-year-old says it's very popular among that age group as well. It's great because it has something for everyone, is educational, and the sections can be read in short sittings. The cover is almost worn out because he takes it everywhere. We now give this book as gifts all the time!

My family, husband, children, and grandchildren have all enjoyed the Kids 2007 Almanac book. It has something for everyone who likes to read and talk about what they read. The most enjoyable section for conversation was on the presidents. MY younger grandchildren liked it very well but my teenager one was visitng and wanted to borrow it. I just ordered her a book of her own. This is a must buy to bring conversation into a mixed group of ages or read alone. It stimulates the mind painlessly.

I have the 2006 and when I went to pick'n save I saw it. It is really cool. The biggest buildings are in the book. I love it!
