Faraway Worlds: Planets Beyond Our Solar System

Synopsis

Learn the secrets of planet-hunters as they search for planets beyond our solar system. Is there more to a star than meets the eye? Take a trip to an alien world and encounter wobbling stars, frozen moons, and boiling oceans. Stunning illustrations and cutting-edge science make this book a first in the field. Includes a glossary and index.

Book Information

Paperback: 32 pages

Age Range: 7 - 10 years

Grade Level: 3 - 5

Customer Reviews

Wonderful up-to-date knowledge regarding the Milky Way Galaxy. My twelve year old son did a summer reading report from the information in this book.

The pictures of planets are beautiful. It is interesting to read about places that I never went to before. Wow. I wish I could visit these planets and see what an alien looks like. I would like to see the volcanoes too.

Great pictures, very colorful illustrations!
