As a piano teacher, I've been using this Alfred curriculum for years and love it. I combine it with the Lesson and Solo books. Each lesson offers a new challenge for the student, along with fun and interesting music.

My son's piano teacher has my son do this book and says it's a good series. We also buy the lesson books. The theory books reinforce the lessons which is valuable to help my son remember new concepts.

I've been using these books (Alfred's Prep Course) for years now - it's my preferred method for both young and adult beginners alike!

Great beginning and introduction to piano for young children. Our ages are 7 and 8 and they really enjoy this series. Colorful and fun while learning.

The piano instructor uses these and I can see why. They are effective and enjoyable. Of course, a great piano teacher is the most important!

The book is totally new and shipping is quick.

It was exactly correct and arrived quickly.

Perfect for my 10 year old student
