Grade Level: Preschool - 2

Customer Reviews

My kids in my classroom LOVE THIS BOOK!!! They are aged 2-3. I read it about 4-5 times a week! Grabs their attention every time and it never gets boring for them. The other teachers are always borrowing it from me as well.

Great book! The book comes with an audio CD and a also a short animation. The book can be read or sung to the melody of "Green Grass Grew All Around". The animation is exactly as shown on the book. My child and preschool friends loved hearing the singing version while following the book as well as watching the animation. The last couple of pages of the book provides "real facts" on the universe. Great addition to our home library! And we just found out our local library will also add this book to the collection.

A fun book and song! Recommend for Montessori study of our place in space.
