Age Range: 10 and up

Grade Level: 5 and up

Customer Reviews

I have used this one, and I own the one on Asia. It is marvelously illustrated and described with a true respect for the cultures. There is none of the all-too-typical Western bias and condescension. The illustrations are colorful and realistic. I am using it to supplement my son's study of World History. It is especially good for the visual learner, but I can't imagine that any child would prefer page after page of type vs what this provides - lively, colorful illustrations with text! I would like to get all in this series.
