Out Of Sight Till Tonight!: All About Nocturnal Animals (Cat In The Hat's Learning Library)

Synopsis

The Cat in the Hat, Sally, and Dick visit with nocturnal animals and learn about their special adaptations for surviving in the dark! Along with Thing One and Thing Two, the gang meet a host of common critters (among them raccoons, owls, and bats), as well as more exotic creatures (including aye-ayes, sidewinders, and kiwi birds), all of whom are active during the night and sleep during the day. Beginning readers will learn how eye shine makes some animalsâ€™ eyes glow in the dark, how bats can see in the dark using high-pitched squeaks, and much, much more! Ideal for supporting the Common Core State Standards and a natural for fans of the hit PBS Kids show The Cat in the Hat Knows a Lot About That!, this is a great way to introduce beginning readers to science!

Customer Reviews

This is another in the series of the Cat in The Hat science books, and we were excited to get this as our 3YO really enjoyed the books in this series that we had to date. I am happy to say that this had just the same reaction with our little one when we got it for his birthday. he enjoyed the initial reading of the book and it has inspired him to ask a lot of other questions about the information in

the book, which is just what we wanted to happen when we bought him this

I love Cat in the Hat and their Learning Library collection is the best. My daughter is collecting them. She is learning so much from this collection and Cat in the Hat makes it fun too. This book is all about nocturnal animals and your child will just love it as it will teach them all about the animals of the night. This is a really great book that you and your child will love to read again and again.

Great detailed and highly educational illustrations and text. My son adores this series and I feel like he learns a great deal from these books...heck, let me be honest, I learn a lot from these books too. :)

Educational book. Well written. Little longer than expected for my purposes in the classroom but used it anyway but would be a good bedtime story for any child I'm sure. Definitely recommend

My grandsons love this one too! We have raccoons in the yard and rarely see them but now the boys understand why.
