## Customer Reviews

My grandson and I love this little book. It is just the right length for a bedtime story. It's well thought out and has him asking the right questions. We like all the Good Night books but this is one of the ones that stand out.

Cute book. Living on the lake it's pretty spot on. If you think it's going to be like the other very famous book with a similar title about a moon it is not. It should be more appropriately titled Good Morning, Good Night Lake.

We purchased this book to give to our family to let them know that we were expecting. As going to

the lake is a big part of our lives (and the lives of many people), we loved sharing our news with a book that we look forward to reading again. The book itself is sturdy, with colorful pictures and a cute story. If you have ever seen the other "Good Night Our World" series books, the plot is structured the same. You will not be disappointed in this book.

Wonderful series... especially when the chosen book is something the child really relates to, e.g., in this case, having a grandma and grandpa who live on a lake.

Good depiction of all the activities a lake experience can provide. Don't know if the target group (pre-schoolers) can follow the fast transitions but glad I got it for the grandkids visit to the lake!

We have other books in this series and this one is great. It's spot on for what a day at the lake is like. My 22 mo old loves it. She likes how it describes all the animals at the lake the most. Especially swans and ducks. I'd highly recommend it.

My 89 year old mother lived on a lake in Western New York. This was her favorite book to give to her great grandchildren. It has very special memories to her six children, 13 grand children and 8 great grandchildren. Her spirit lives on through this book.

This is a cute series of books. We spend some time at my brother's lake house, and my husband fishes various places, so this is a cute way to "bring it home" for my son.
